

FACULTAD DE ESTUDIOS INTERNACIONALES
Escuela de Idiomas y Lingüística Aplicada

MINOR/MENCION

EDUCATION

(18 credits UEES)

This Minor explores the field of Education from a philosophical perspective. This program provides excellent tools for professionals (i. e. “train the trainer” programs) who must deal with human talent and training programs within an organization. It is also aimed at entrepreneurs who wish to create a business focused on training materials and learning resources.

This Minor prepares students for understanding and applying different teaching/learning styles and techniques and develop their own models for various business applications (corporate, international ventures, educational projects).

Most importantly, the program also prepares you for creating and effectively working with international, multilingual, multicultural teams which is becoming a standard in today’s world.

UCMU311	Intercultural Interactions in Education
UEDU 210	Filosofía de la Educación/Philosophy of Education
